# STAR BELTING

ISO : 9001-2008

## APPLICATION

### Mechanical Engineering, Metal Processing

Folding Press  
Plate bending machines  
Wire drawing machines  
Milling machines  
Internal grinding machines  
Circular saws  
Cylindrical grinding machines  
Die-forging mills  
Punching machines  
Extruding presses  
Circular hot sawing machines  
Wrapper Belts(Sheet steel)

### Wood and Plastics Processing

Waste crushers  
Feeler-planers  
Extract fans  
Shaping machines  
Multi-spindle drilling machines

### Paper Production

Glazing rollers  
Vacuum pumps  
Paper-making machine main drives

### Paper Processing, Graphic Industry

Letterpress machines  
Folding box machines  
Folding & gluing machine  
Reeling devices  
Gluing machines

### Textile Industry

Head twisting machines  
False twisting machines  
Carding machines  
Ring twisting machines  
Spinning frames  
Textile machines  
Washing machines  
Combing machines

### Food Industry, Chemical, Pharmaceutical Industries

Conveyor belts  
Refrigerating systems  
Mixers  
Packing systems  
Conveyor Technology  
File conveyor  
Roller conveyors

### General Drives

General gears machine  
Rotary piston blowers  
Gears, general Large  
Main drives  
Marble mills  
Ship's shafts  
Transmissions  
Feed equipment  
Centrifugal pumps

Belt driven saws  
Plate bending rolls  
Automatic lathes  
Internal circular grinding machines  
Multi-spindle drilling machines  
Shaping machines  
Stamping presses  
Transmissions  
Hot rolling mills

Surface planing machines  
Dual trimming cutlers  
Milling machines  
Circular saws  
Multiple blade frame saws

Main drives  
Cone drives  
Pulpers  
Back stand drives

Printing machines  
Packing systems  
Copying machines  
Reel slitters  
Packing machines

Opening machinery  
Roving frames  
Knurling machines  
Rotor spinning frames  
Automatic knitting machines  
Texturising machines

Blowers  
Laboratory equipment  
Sifters  
Packing machines

Hoisting winches  
Cable winches

Excavator drives  
Bucket-ladder excavators  
Fans  
Auxiliary drives  
Pumps  
Walking crushers  
Turbines  
Cement mixers  
Brickwork machines

Bending machines  
Drilling machines  
Lathes  
Planers  
Cold pilger rolling mills  
Metal saws  
Grinding machines  
High-speed presses  
Punching units  
Vertical boring machines  
machine tools

Knothole boring machines  
Wood turning lathes  
Veneer cutting machines  
Peeling machines  
Chippers

Auxiliary drives  
Paper-making machines  
Reeler drives

Printing presses  
Jointing apparatuses  
Paper feeders

Up-twisters  
Friction machines  
Roll-up machines  
Circular knitting machines  
Draw texturing machines  
Wind-off machines  
Looms

Kneading machines  
Agricultural machines  
Agitators  
Cylinder mills

Conveyor belts  
Transport systems 1

Lignite briquette presses  
Blowers  
Mini fans  
Compressors  
Radial blowers  
Stone crushers  
Fans  
Cement mills  
Brick presses

Plate bending machines  
Horizontal boring machines  
Surface grinding machines  
Honing machines  
Body presses  
Presses  
Forging presses  
Automatic gang  
Slotting machines  
Gear-cutting machines  
Drawing presses

Drilling machines  
Break peeling machines  
Chopping machines  
Reciprocating saws  
Match-making machines

Beater rollers  
Press Parts

Folding machines  
Jointing machines  
Cross cutters  
Rotary presses

Flyer doubling machines  
Friction texturing machines  
Ring spinning frames  
Heavy twisting machines  
Draw twisting machines  
Pre-twisting machines  
Twisting machines

Kneading mills  
Crushing mills  
Transport systems

Hoisting drums  
Transport belt systems 2

Briquette presses  
Generators  
Gear groups  
Rotary pumps  
Ship's generators  
Stone mills  
Gears  
Centrifuges

# Nylon Sandwich Belts

ALL TYPE INDUSTRIAL BELTS

Rubber Nylon Sandwich Belt	Type	Top/Bottom	Nylon Thickness	Total Thickness (Approx.)
	GR1	Rubber/Rubber	0.6 mm	2.0 mm.
	GR2	Rubber/Rubber	0.8 mm	3.0 mm.
	GR3	Rubber/Rubber	1 mm	4.0 mm.
	GR4	Rubber/Rubber	1.2 mm	5.0 mm.
	GR5	Rubber/Rubber	1.5 mm	5.0 mm.

Leather Nylon Sandwich Belt	Type	Top/Bottom	Nylon Thickness	Total Thickness (Approx.)
	LL06	Leather/Leather	0.4 mm	4.5 mm.
	LL10	Leather/Leather	0.8 mm	5 mm.
	LL16	Leather/Leather	1.0 mm	5.0 mm.
	LL20	Leather/Leather	1.6 mm	6.0 mm.

Leather Nylon Sandwich Belt	Type	Top/Bottom	Nylon Thickness	Total Thickness (Approx.)
	LT06	Febric/Leather	0.4 mm	2.6 mm
	LT10	Febric/Leather	0.8 mm	3.2 mm
	LT16	Febric/Leather	1.2 mm	3.5 mm
	LT20	Febric/Leather	1.6 mm	4 mm
	LT30	Febric/Leather	2.25 mm	5 mm
	LT40	Febric/Leather	3.0 mm	6 mm
	LT50	Febric/Leather	3.75 mm	7 mm

Nylon Sandwich Belt	Type	Top/Bottom	Nylon Thickness	Total Thickness (Approx.)
	TT06	Fabric/Fabric	0.4 mm	1 mm.
	TT10	Fabric/Fabric	0.8 mm	1.2 mm.
	TT14	Fabric/Fabric	1.2 mm	1.5 mm.
	TT20	Fabric/Fabric	1.6 mm	2.0 mm.
